

Ruby master - Bug #10071

Documentation for time.c contains broken links

07/19/2014 07:33 AM - febuiles (Federico Builes)

Status:	Closed	
Priority:	Normal	
Assignee:	zzak (Zachary Scott)	
Target version:	2.2.0	
ruby -v:	ruby 2.0.0p451 (2014-02-24 revision 45167)	Backport: 2.0.0: UNKNOWN, 2.1: UNKNOWN

Description

The documentation for compat_common_month_table in time.c:1326 contains a link to <http://use.perl.org/articles/08/02/07/197204.shtml>, which 404s. I tried to search for the original article (<http://use.perl.org/use.perl.org/search1e49-2.html?threshold=0&op=stories&sort=1&start=1980>) but I couldn't find anything related to the month table.

The comments also mention an issue with Debian and timezones (<http://bugs.debian.org/cgi-bin/bugreport.cgi?bug=522949>) but I cannot reproduce on Wheezy.
