

Ruby trunk - Feature #10342

Module#deprecate_constant

10/08/2014 03:54 PM - nobu (Nobuyoshi Nakada)

Status:	Closed	
Priority:	Normal	
Assignee:	matz (Yukihiro Matsumoto)	
Target version:		
Description		
Proposal for Module#deprecate_constant, which marks constants referred by arguments as deprecated.		
<pre>class C FOO = 1 deprecate_constant :FOO end C::FOO #=> warning: constant C::FOO is deprecated</pre>

History

#1 - 10/08/2014 03:55 PM - nobu (Nobuyoshi Nakada)

- Related to Misc #10339: normalize reference to Timeout::Error added

#2 - 10/08/2014 05:27 PM - marcandre (Marc-Andre Lafortune)

The same effect can already be achieved using autoload, right?

#3 - 10/10/2014 11:55 PM - nobu (Nobuyoshi Nakada)

Yes, autoload can do the trick, but it needs a separated file and warns only once.

#4 - 04/29/2016 02:27 PM - nobu (Nobuyoshi Nakada)

- Status changed from Open to Closed

#5 - 04/29/2016 02:36 PM - nobu (Nobuyoshi Nakada)

- Has duplicate Feature #11398: deprecate constants added
