

## Ruby master - Feature #10666

### Allow setting of default MIME type for WEBrick

12/28/2014 06:14 PM - parkr (Parker M)

<b>Status:</b>	Rejected	
<b>Priority:</b>	Normal	
<b>Assignee:</b>	nobu (Nobuyoshi Nakada)	
<b>Target version:</b>		
<b>Description</b>		
<p>HTTPUtils <a href="#">specifically specifies application/octet-stream as the fallback MIME Type</a>. Other web servers allow you to change the default to, say, text/html or text/plain. I would like to be able to set this to any MIME Type in the mime_tab list, or to specify a "default" MIME Type in the mime_tab that is used:</p>		
<pre>mime_tab[suffix1]    mime_tab[suffix2]    mime_tab["default"]    "application/octet-stream"</pre>		
or		
<pre>mime_tab[suffix1]    mime_tab[suffix2]    @default_fallback_mime_type</pre>		
What do you think?		

#### History

**#1 - 01/05/2018 09:01 PM - naruse (Yui NARUSE)**

- Target version deleted (2.2.0)

**#2 - 12/24/2020 10:27 AM - hsbt (Hiroshi SHIBATA)**

- Status changed from Open to Rejected

WEBrick has been removed from ruby repository.

If anyone interest this, Please file this to <https://github.com/ruby/webrick>
