

Ruby master - Feature #12083

`$_` and `$~` by `Binding#local_variable_{get,set}`

02/18/2016 04:35 AM - nobu (Nobuyoshi Nakada)

Description	
I think <code>Binding#local_variable_get</code> and <code>Binding#local_variable_set</code> may deal with special method-local variables, <code>\$_</code> and <code>\$~</code> .
