Target version:			
ruby -v:	ruby 2.3.1p112 (2016-04-26 revision 54768) [x86_64-darwin15]	Backport:	2.1: UNKNOWN, 2.2: UNKNOWN, 2.3: UNKNOWN

Description

Hello,

URI.regexp should not include comma at the end of string if followed by whitespace in my opinion.

USE CASES:

1) test string: "<http://domain.com>, " - URI.regexp matches: "<http://domain.com>" (without comma)
2) test string: "<http://domain.com/?params=21,22,23>, " - URI.regexp matches: "<http://domain.com/?params=21,22,23>." (with comma)

The point is some users are typing URLs with comma behind so than links are broken.

- Status changed from Open to Closed

It is the matter of URL spec.
<https://url.spec.whatwg.org/>

If the spec is changed as you say, we'll follow it.
