

Ruby master - Bug #12941

malloc: * error for object 0x7fb4a88d2320: pointer being freed was not allocated**

11/15/2016 10:19 AM - perlun (Per Lundberg)

Status: Closed	
Priority: Normal

Target version:	
ruby -v: ruby 2.3.1p112 (2016-04-26 revision 54768) [x86_64-darwin15]	Backport: 2.1: UNKNOWN, 2.2: UNKNOWN, 2.3: UNKNOWN

Description

I am occasionally seeing issues like this:

```
ruby /Users/plundberg/.rvm/gems/ruby-2.3.1/bin/rspec(63837,0x7fffd90c33c0) malloc: *** error for object 0x7fb4a88d2320: pointer being freed was not allocated
*** set a breakpoint in malloc_error_break to debug
Abort trap: 6
```

This is unfortunately in a non-FOSS repo, but I can provide the spec_helper and Gemfile* if it helps. Any immediate suggestions?

History

#1 - 01/30/2018 07:19 PM - perlun (Per Lundberg)

No feedback received, no other people have reported the same issue. Let's close this for now until we have a good, isolated repro case.

#2 - 01/31/2018 01:02 AM - hsbt (Hiroshi SHIBATA)

- Status changed from Open to Feedback

Ruby 2.3.1 is not the latest release version. Please try with Ruby 2.3.6 or 2.4.3.
