

Ruby master - Bug #13817

test/unit breaks Hash

08/15/2017 11:18 AM - rovf (Ronald Fischer)

Status: Closed	
Priority: Normal	
Assignee: ktsj (Kazuki Tsujimoto)	
Target version:	
ruby -v: ruby 2.4.1p111 (2017-03-22 revision 58053) [x86_64-linux]	Backport: 2.2: REQUIRED, 2.3: DONE, 2.4: DONE
Description Consider the following program: <pre>#!/usr/bin/env ruby BEGIN {\$VERBOSE = true} require 'test/unit' class Hash STDERR.puts method_defined?(:<<) alias << merge! STDERR.puts method_defined?(:<<) end</pre> In older Ruby versions (1.9.3, 2.3.3), the output of this program was: <pre>false true</pre> In Ruby 2.4.1, the output is <pre>false ~/work/stash/vp5/src/test/test_xx.rb:6: warning: method redefined; discarding old << true</pre> Please note: <ol style="list-style-type: none">1. The warning occurs, even though method_defined? tells us that no << method is in Hash.2. The warning disappears, when we do not require test/unit, which suggests that the problem is caused by test/unit3. Changing the offending line to alias :<< :merge! does not make any difference

- Assignee set to ktsj (Kazuki Tsujimoto)

- Status changed from Open to Third Party's Issue

It's not caused by test-unit. It's caused by power_assert.

Please report it to https://github.com/k-tsj/power_assert/issues/new with the following script:

```
#!/usr/bin/env ruby
$VERBOSE = true
require 'power_assert/enable_tracepoint_events'
class Hash
  STDERR.puts method_defined?(:<<)
  alias << merge!
  STDERR.puts method_defined?(:<<)
end
```

#2 - 08/15/2017 03:19 PM - rovf (Ronald Fischer)

Bug reported at https://github.com/k-tsj/power_assert/issues/19

#3 - 08/15/2017 11:44 PM - kou (Kouhei Sutou)

Great!

#4 - 08/16/2017 03:25 AM - wanabe (_ wanabe)

- Related to Bug #11182: Refinement with alias causes strange behavior added

#5 - 08/17/2017 02:14 PM - nobu (Nobuyoshi Nakada)

- Backport changed from 2.2: UNKNOWN, 2.3: UNKNOWN, 2.4: UNKNOWN to 2.2: REQUIRED, 2.3: REQUIRED, 2.4: REQUIRED

- Status changed from Third Party's Issue to Open

- Description updated

It's a ruby's bug.

"old <<" means a refined method, but it is not redefined actually.

```
class C
  def t; :t; end
  def f; :f; end
end
```

```
module M
  refine C do
    alias foo t
  end
end
```

```
class C
  alias foo f
end
```

```
using M
p C.new.foo #=> :t
```
