

Ruby 1.8 - Bug #1426

REXML::Document.write wrong formatting

05/01/2009 12:51 AM - luzan8 (Luciano Zanutto)

Status:	Closed
Priority:	Normal
Assignee:	
Target version:	Ruby 1.8.6
ruby -v:	ruby 1.8.6 (2007-09-24 patchlevel 111) [i386-mswin32]

Description

=begin

In method write of class REXML::Document a bug in method declaration causes a failure. Following is method declaration

```
def write( output=$stdout, indent=-1, trans=false, ie_hack=false )
```

third parameter is declared with name "trans", but later is checked with name "transitive", generating an error.

=end

History

#1 - 05/01/2009 03:22 AM - febuiles (Federico Builes)

=begin

This was fixed a while ago, just upgrade your copy of Ruby or the REXML library.

=end

#2 - 05/01/2009 07:50 AM - matz (Yukihiro Matsumoto)

- Status changed from Open to Closed
