

Ruby master - Bug #14543

`make commit` show error of `common-srcs`

02/23/2018 05:12 AM - hsbt (Hiroshi SHIBATA)

Status: Assigned	
Priority: Normal	
Assignee: nobu (Nobuyoshi Nakada)	
Target version:	
ruby -v:	Backport: 2.3: UNKNOWN, 2.4: UNKNOWN, 2.5: UNKNOWN

Description

When I use make commit, it shows following error.

```
~/D/g/r/ruby (trunk) > mk commit
make: Entering directory '/Users/hsbt/Documents/github.com/ruby/ruby/.x86_64-darwin'

```

mk is an alias of make -j. [nobu \(Nobuyoshi Nakada\)](#) Can you investigate it?

History

#1 - 06/02/2018 04:17 AM - hsbt (Hiroshi SHIBATA)

I discussed about this with nobu.

```
941:common-srcs: $(srcs_vpath)parse.c $(srcs_vpath)lex.c $(srcs_vpath)enc/trans/newline.c $(srcs_vpath)id.c \
```

nobu copied above files by his own tool before make commit. I requested to fix this dependency problem to him.
