

Ruby trunk - Feature #15609

Kernel#sleep returns Float instead of Integer

02/18/2019 07:02 AM - znz (Kazuhiro NISHIYAMA)

Target version:	
Description	
rb_f_sleep uses time() internally, so it always returns Integer even if it called with Float.	
https://github.com/ruby/ruby/blob/124957566f041e5c6e8f678dfaf62cae381826dc/process.c#L4840-L4857	
I think returning Float is more useful than Integer. (But I have no real use cases now.)
