

Ruby trunk - Misc #15739

Improvements needed to documentation of Hash#dig, Array#dig and OpenStruct#dig

03/30/2019 06:39 PM - CaryInVictoria (Cary Swoveland)

Status: Open	
Priority: Normal	
Assignee:	
Description	
The documentation of these three methods fails to explain how they interact. For example:	
<pre>h = { a: [1,2,3] } h.dig(:a, 1) #=> 2</pre>	
Hash#dig is used first:	
<pre>a = h.dig(:a) #=> [1,2,3]</pre>	
Then Array#dig is invoked:	
<pre>a.dig(1) #=> 2</pre>	

History

#1 - 03/30/2019 06:40 PM - CaryInVictoria (Cary Swoveland)

- Subject changed from Improvements needed to documentation of `Hash#dig`, `Array#dig` and `OpenStruct#dig` to Improvements needed to documentation of Hash#dig, Array#dig and OpenStruct#dig
