

Ruby master - Misc #16126

Fix small docs inconsistencies

08/24/2019 05:35 PM - zverok (Victor Shepelev)

Status:	Closed
Priority:	Normal
Assignee:	
Description	
The patch with some small-ish fixes:	
<ul style="list-style-type: none">• Enumerator refers to #enum_for/#to_enum under Kernel, while in fact they are documented under Object;• Kernel#warn has outdated call sequence;• ClosedQueueError is not mentioned in errors hierarchy;• then is referred to as yield_self, obscuring the usage.	
Not fixed yet, though should be:	
<ul style="list-style-type: none">• File::Constants documented as File::File::Constants: https://github.com/ruby/rdoc/issues/741• ClosedQueueError doesn't renders its parent right (probably RDoc bug also, will investigate).	
For the next, step, I plan to provide a PRs with core and stdlib docs that are just missing, outdated or confusing.
