

Backport191 - Backport #1723

respond_to? vs. to_ary

07/05/2009 07:00 AM - zverok (Victor Shepelev)

Status: Closed	
Priority: Normal	
Assignee: yugui (Yuki Sonoda)	
Description	
<pre>=begin # class with respond_to? redefined class A def respond_to?(m); false end end x = [A.new] # deconstructing iteration x.each do a, b p [a,b] end It outputs [nil, nil], while [#, nil] is expected. If I comment out respond_to? in A, all works as expected =end</pre>	

History
