[Bug #1746: LDSHARED set to 'ld -G' on Solaris doesn't work with Sun studio

```
|-          : ${LDSHARED='ld -G'}
|+          : ${LDSHARED='$(CC) -G'}
```

Does this work for older SunOS?

```
matz.

I think this depends on the compiler and with all studio compilers using compiler (cc) instead of directly calling ld is recommended.
