

Backport191 - Backport #2628

1.9 Hash documentation says hashes not ordered

01/22/2010 09:12 PM - ddfreyne (Denis Defreyne)

Status:	Closed	
Priority:	Normal	
Assignee:	shyouhei (Shyouhei Urabe)	
Description		
=begin The documentation for Hash says that hashes are not ordered, even though 1.9.x hashes are ordered. From the documentation (ri): "The order in which you traverse a hash by either key or value may seem arbitrary, and will generally not be in the insertion order." The documentation for Hash should be updated to reflect that they are ordered, and that iterating over keys or values or both will happen in order of insertion. =end
