

Backport191 - Bug #2630

generator.rb missing from 1.9.1 standard library?

01/22/2010 11:48 PM - mikewoodhouse (Mike Woodhouse)

Status:	Closed
Priority:	Normal
Assignee:	
Target version:	
ruby -v:	1.9.1
Description	
=begin Installed 1.9.1 Windows installer RC1 - generator.rb seems not to be not present I copied generator.rb from lib/ruby/1.8, which fixed the problem with the library that required it. AFAIK, generator is part of the standard library in 1.8 (it's documented on p683 of Pickaxe Second Edition). Unintended omission? Functionality not needed in 1.9? =end

=begin
I believe it's been replaced with (now built in) enumerators and fibers.
I think you can get the same functionality Generator.new used to give you by just replacing it with Enumerator.new
-r
ref: http://wiki.github.com/rdp/ruby_tutorials_core/enumerator
