

Ruby master - Bug #2960

svn revision detection of git-based repo on Windows is broken

03/14/2010 07:35 PM - vvs (Vladimir Sizikov)

Status: Closed	
Priority: Normal	
Assignee:	
Target version:	
ruby -v: ruby 1.9.2dev (2010-03-14) [i386-mingw32]	Backport:

Description

=begin

This leads to situation when MRI built on Windows from git-based repo doesn't show the actual SVN revision: ruby 1.9.2dev (2010-03-14) [i386-mingw32]

This is a regression caused by recent changes in file2lastrev.rb file.

Attached is a small patch that fixes the problem for me on Windows. And I checked that it works on Linux as well.

=end

History

#1 - 03/15/2010 12:27 AM - naruse (Yui NARUSE)

- Status changed from Open to Closed

- % Done changed from 0 to 100
