

Ruby master - Bug #3225

lib/uri/mailto.rb slightly wrong regexp

04/30/2010 01:24 PM - marcandre (Marc-Andre Lafortune)

Status: Closed	
Priority: Normal	
Assignee: marcandre (Marc-Andre Lafortune)	
Target version: 1.9.2	
ruby -v: ruby 1.9.2dev (2010-04-30 trunk 27554) [x86_64-darwin10.3.0]	Backport:

Description

=begin

Looking for example of the 3rd parameter of value 'N' for Regexp.new, I noticed in lib/uri/mailto.rb

```
HEADER_REGEXP = Regexp.new(HEADER_PATTERN, 'N').freeze
```

Unless I'm mistaken, the 'N' in second position is simply a flag for case insensitivity, but HEADER_PATTERN already is, so it should either be

```
HEADER_REGEXP = Regexp.new(HEADER_PATTERN).freeze
```

or

```
HEADER_REGEXP = Regexp.new(HEADER_PATTERN, nil, 'N').freeze
```

but I don't know which one...

=end

History

#1 - 04/30/2010 07:11 PM - naruse (Yui NARUSE)

=begin

This is introduced in r2934 and it can be encoding parameter: NONE.

But in 1.9, it works different from 1.8, so remove 'N' seems correct.

This issue was solved with changeset r27731.

Marc-Andre, thank you for reporting this issue.

Your contribution to Ruby is greatly appreciated.

May Ruby be with you.
