Status:	Rejected	
Priority:	Normal	
Assignee:	nahi (Hiroshi Nakamura)

Description

I got a segmentation fault while running activemerchant in ruby 1.9.2 which i just got only now. It has been working like a charm way before and my guess is that this is related to my recent upgrade to Mac OSX version 10.6.7. but i wouldn't really know. Anyway here is the stacktrace:

*NOTE: i have also tried this in 1.9.2-p180 and it gives me the same thing. I've first checked in active merchant google groups and I saw that they said its a ruby 1.9 thing rather than activemerchant.
