

Ruby master - Bug #4748

documentation updates: Curses and friends are 100% documented

05/21/2011 05:55 AM - vbatts (Vincent Batts)

Status:	Closed	
Priority:	Normal	
Assignee:	drbrain (Eric Hodel)	
Target version:	1.9.3	
ruby -v:	ruby 1.9.3dev (2011-05-20 trunk 31647) [x86_64-linux]	Backport:
Description well 100% per the rdoc report. Sadly there are a host of constants that are not being picked up by RDoc (I intend to follow up on that)

- Status changed from Open to Closed
- % Done changed from 0 to 100

This issue was solved with changeset r31683.
 Vincent, thank you for reporting this issue.
 Your contribution to Ruby is greatly appreciated.
 May Ruby be with you.

- ext/curses/curses.c: Complete documentation. Patch by Vincent Batts. [Ruby 1.9 - Bug [#4748](#)]

#2 - 05/24/2011 10:06 PM - mame (Yusuke Endoh)

- Status changed from Closed to Open

Hello,

- * === Constants
- *
- * For whatever reason, these are not picked up in the RDoc
- * These are Integer of the colors.
- *
- ** COLOR_BLACK = 0
- ** COLOR_RED = 1
- ** COLOR_GREEN = 2
- ** COLOR_YELLOW = 3
- ** COLOR_BLUE = 4
- ** COLOR_MAGENTA = 5
- ** COLOR_CYAN = 6
- ** COLOR_WHITE = 7
- *
- *

These actual values must not be documented.

These constants just export ones of curses.h.
 Some environments have a different integer set. For example,
 I heard that COLOR_RED is 4 in windows.
 In addition, Ruby curses library can change the actual value in
 future. For example, it might be better for such a constant to
 have a Symbol.

- /*
- * Document-const: Curses::COLOR_BLACK
- *
- * Integer of the color black
- */

For the same reason, "Integer" should not be mentioned.
