

Ruby master - Bug #4937

trunk@32244 MinGW build failure - thread_win32.c

06/27/2011 11:58 PM - jonforums (Jon Forums)

Status: Closed	
Priority: Normal	
Assignee: ko1 (Koichi Sasada)	
Target version: 1.9.3	
ruby -v: ruby 1.9.3dev (2011-06-27 trunk 32242) [i386-mingw32]	Backport:
Description	
The signature of native_stop_timer_thread at https://github.com/ruby/ruby/blob/trunk/thread_win32.c#L748 conflicts with it's usage by rb_thread_stop_timer_thread at https://github.com/ruby/ruby/blob/trunk/thread.c#L2989 resulting in the following build error when using the RubyInstaller build recipes and gcc.exe (tdm-1) 4.5.2: compiling ../../../../Users/Jon/Documents/RubyDev/ruby-git/thread.c ../../../../Users/Jon/Documents/RubyDev/ruby-git/thread.c: In function 'rb_thread_stop_timer_thread': ../../../../Users/Jon/Documents/RubyDev/ruby-git/thread.c:2989:5: error: too many arguments to function 'native_stop_timer_thread' ../../../../Users/Jon/Documents/RubyDev/ruby-git/thread_win32.c:748:1: note: declared here

- Assignee set to ko1 (Koichi Sasada)

This was introduced in r32244 by Koichi Sasada. Assigning it to him.

Sasada-san, seems the signature change in thread_win32.c is missing, the following patch solves the compilation but I'm unsure the extend of the needed changes:

```
diff --git a/thread_win32.c b/thread_win32.c
index 5c20650..68fb346 100644
--- a/thread_win32.c
+++ b/thread_win32.c
@@ -745,7 +745,7 @@ rb_thread_create_timer_thread(void)
 }
```

```
static int
-native_stop_timer_thread(void)
+native_stop_timer_thread(int close_anyway)
{
int stopped = --system_working <= 0;
if (stopped) {
```

#2 - 06/28/2011 09:51 AM - nahi (Hiroshi Nakamura)

- Target version set to 1.9.3

#3 - 06/29/2011 12:23 AM - jonforums (Jon Forums)

fixed by trunk@32268 with make test and make test-all TESTS='openssl fiddle psych' all passing

#4 - 06/29/2011 01:08 PM - usa (Usaku NAKAMURA)

- Status changed from Open to Closed
