History

#1 - 10/09/2011 09:32 PM - Eregon (Benoit Daloze)

There is a typo in the example for uniq:

```
b.uniq!{ ...
```

Also, the added description how to pass a block should be the same in uniq and uniq! (I prefer the one of uniq!).

Thanks for documenting in sentences this behavior.

Thanks Benoit. I've fixed that typo and used the same explanation for both uniq and uniq!. Also made some other changes to other sections on the Array.

Will do. Sorry for that. The idea is to ease your work, not burden it :P.
